### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gregory Lapointe on February 15, 2007.

The application has been amended as follows:

In the Specification:

In line 17 of paragraph 10, ---, pin--- has been inserted after "elongated".

Before paragraph 11, the following paragraph has been inserted:

---The electrode means has a material that is selected from the group consisting of a stainless steel alloy, iron-silicon alloy, magnesium-zinc-calcium alloy, gold, silver, palladium, platinum, titanium, carbon, graphite, a semiconductor material, a conductive synthetic material, and glass. The electrode means can be formed on one flat side of a disc element with one of plastic, Teflon, glass, aluminum oxide and ceramic, and the opposite flat side includes a means for fixing electronic components of the electrical signal-generating means. The signal-generating means is operable with low voltage and generates an electrical alternating signal between electrodes of the electrode means with a maximum amplitude < 50V and a signal frequency in the range between 1 and 500kHz, in particular 5 to 50 kHz, and having settings

means for automatic changing of a maximum amplitude, an amplitude swing and/or a signal/pause ratio of the alternating signal, dependent on a conductivity of the water mass, and means preferably being provided for short-circuiting the electrodes during a pause in the electrical alternating signal.---

In the Claims:

In line 3 of claim 25, "Teflon" has been changed to ---polytetrafluoroethylene---.

2. The following is an examiner's statement of reasons for allowance: The outstanding rejections and objections have been overcome and are withdrawn. Reasons for allowance of the claims are given in the previous office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
